Dirty old town

```
C

I met my love by the gasworks wall
          F                   C
dreamed a dream by the old canal
          C                    C
kissed a girl by the factory wall
          G                  a
dirty old town, dirty old town

           C
Clouds are drifting across the moon
          F                   C
cats are prowling on their beat
          C                       C
springs a girl on the street at night
          G                a
dirty old town, dirty old town

          C
I heard a siren from the docks
        F                     C
saw a train set the night on fire
             C                     C
smelled the spring on the smokey wind
          G                a
dirty old town, dirty old town

           C
I'm gonna make me a big sharpe axe
          F                     C
shining steel tempered in the fire
       C                              C
I'll chop you down like a dead old tree
          G                  a
dirty old town, dirty old town
```
